Pop-Up Retail, Reinvented.

- Comes in small bags
- Dynamic look
- All up in a couple of hours.

Turn Empty Retail Space Into a Stunning Store - Fast.

Vacant spaces-typically 2% to 5% in most shopping centres, hurt the ambience & lower appeal. Pop-up shops can help, but when they look temporary or poorly presented, they drag the entire center down.

From a tenant's side, setup costs and visual presentation are key barriers. That's where the Wonda Pop-Up Shop comes in.

The Wonda system is modular, fast to set up, and visually powerful.

Within just an hour or two, your pop-up shop is fully installed-complete with **backlit signage, illuminated presentation walls**, and a clean, polished look that stands out. The modular system allows endless layout variations, with a wide selection of **interchangeable signs, shelving, and displays.**

Each Wonda shop is visually unique-thanks to **limitless artwork options & flexible design elements.** Whether it's a small 50 m² space or a large 300-400 m² unit, Wonda adapts.

Easy setup. Bold presentation. Maximum flexibility.

For tenants, it's a cost-effective way to shine. For landlords, it fills space fast and lifts the look of the center.

Wonda Pop-Up Shop: A smart upgrade for vacant space.
